

A closed book

Look at each stage, then draw your own version. Different shapes and styles are welcome.

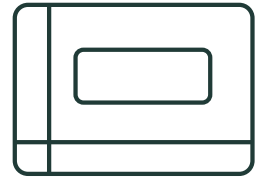

1. Rounded rectangle

2. Add the spine

3. Add cover details

What pattern would you add to the cover? Do not draw sacred text.

My own version - no need to match the example.

A little lamp

Look at each stage, then draw your own version. Different shapes and styles are welcome.

1. A wide trapezoid

2. Add stem and base

3. A small pull cord

Imagine where this lamp could stand. Ask an adult before touching real lamps.

My own version - no need to match the example.

A growing plant

Look at each stage, then draw your own version. Different shapes and styles are welcome.

1. A plant pot

2. A long stem

3. Add leaf shapes

Choose your own number of leaves. This picture is imaginary, not a plant guide.

My own version - no need to match the example.

An imagined building

Look at each stage, then draw your own version. Different shapes and styles are welcome.

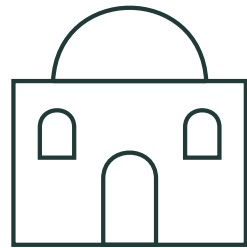

1. A rectangle

2. A curved dome

3. Doors and windows

A masjid-inspired art activity: buildings vary. This is architecture art, not religious teaching.

My own version - no need to match the example.
